

Table 3 : Loi de Student (t)

La table donne la valeur t_{α} telle que $\alpha = P(t > t_{\alpha})$

ddl	α								
	0,30	0,20	0,10	0,05	0,025	0,01	0,005	0,001	0,0005
1	0,727	1,376	3,078	6,314	12,706	31,821	63,657	318,309	636,619
2	0,617	1,061	1,886	2,920	4,303	6,965	9,925	22,327	31,599
3	0,584	0,978	1,638	2,353	3,182	4,541	5,841	10,215	12,924
4	0,569	0,941	1,533	2,132	2,776	3,747	4,604	7,173	8,610
